

# Troubleshooting

## Common Issues

- **Bot Fails to Start**
    - Check the console for error logs. Ensure all dependencies are installed correctly, and configuration files are properly set.
  - **Insufficient Permissions**
    - Verify the bot has the necessary roles and permissions in your Discord server.
  - **Resource Limits**
    - Consider upgrading to a higher-tier plan if your bot requires more memory or processing power.
- 

## Need Help?

If you encounter any issues or have questions, open a support ticket via the [Billing Area](#). Our expert team is always ready to assist.

---

With our hosting plans, setting up your Discord bot is a seamless process. Choose the best option for your needs, and enjoy hassle-free bot hosting with top-notch performance!
